

The Big Top

On the 4th and 10th of April we made trips to New Brighton and Knutsford to visit the Chinese State Circus. When we got there, we were given the best seats in the house - we had a good view of everything that was going on.

We were all amazed at the feats of the acrobats and the Shaolin monks who did things that seemed impossible. We mostly enjoyed the part when the motorbikes rode around in a big round cage, where not one but four bikes went in and started going around and around at a fast pace. Everyone was amazed and enjoyed it very much.

Mark and Francis were that excited that they couldn't keep still and the smile on their faces made everybody's day.

Peter was amazed throughout as he sat with his mouth open from start to finish.

On the second trip to the circus, Andrei and Phillipa enjoyed it so much that Phillipa laughed throughout and was dancing in her chair. Andrei was stunned as he watched the acrobats throwing themselves onto poles and ropes and the Shaolin Monks hitting themselves over the heads with iron bars - they must have had one major headache after that! William enjoyed it so much but got a bit scared when the motorbike riders came out and made a lot of noise. A great time was had by all.
