

Brothers of Charity Services

Working in partnership for positive lives

Brothers of Charity Services are part of an international organisation which supports adults with learning disabilities.

We can offer very flexible volunteering, work experience or work placement opportunities in **Health & Social Care**

We work in partnership with the people we support to deliver the service they want, when they want it, by the staff that they choose, to achieve the positive lifestyles that they want.

We have a diverse range of partners and have a willingness to share our ability, knowledge and skills to ensure the best service is delivered to those we support, facilitating choice, control and independence leading to rich and fulfilled lifestyles.

We are always keen to hear from and work with others who share our vision and mission to help people to achieve their potential, live rich and positive lives and feel included in the communities in which they live.

We deliver services in a number of locations across the Northwest.
